9/28/2016 8:20:00 AM Thyroid Stimulating Hormone:

The Endocrine Section at DCPAH has adopted a chemiluminescent immunometric assay for measurement of canine TSH (Immulite 2000 XPi). This assay has been used in many clinical studies in dogs and cats. With this change, we will now be reporting results in ng/mL, the commonly used units for this assay.

9/28/2016 8:20:00 AM Thyroglobulin Autoantibody:

< 20% Negative
20 - 35 % Inconclusive
> 35% Positive
